

BELT SANDER SAFETY (READ BEFORE USE)

- Keep fingers away from moving belt
- Always hold block firmly
- Keep one side of block flat against table top whenever possible
- There are two belt grits – rough for starting, fine for finish sanding – tell Eric if you want to switch

Never hold the block like this – sander will kick-back

- Use the small sander for fine details and tight areas
- Use for finish sanding **ONLY**
- Not meant for initial rough sanding !!
- Let Eric vacuum out dust every ½ hour
- Same safety rules apply !!
