

Painting Guidelines

- **HANDS:** Wear gloves if you want
- **SHOES:** Either take shoes off while walking in garage, or clean them off when you finish to make sure there is no paint on the bottoms
- Use wipes and paper towels for cleanup
- Don't dip your whole roller in paint – use the ramp in the paint tray
- Apply just enough paint to cover well – several light coats are better than a heavy coat
- Keep an eye out for runs and drips in the paint
