

Troop 1028 New Scout Handbook Information

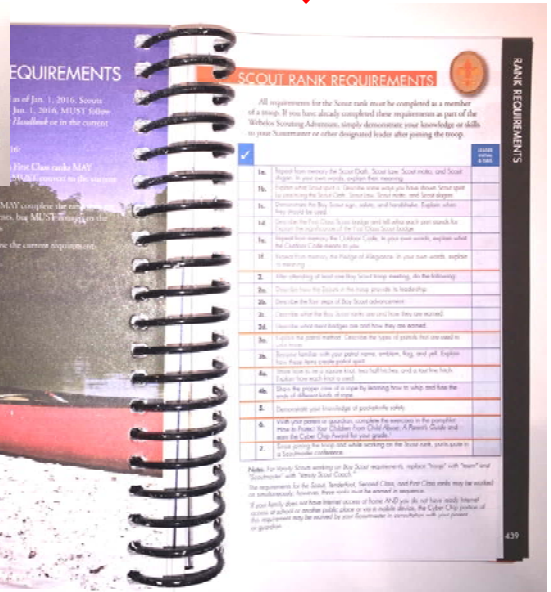

The Scout Handbook contains the most important reference information and rank advancement tracking that you will use throughout your entire Scouting career. Bring it to every Troop meeting and event unless notified otherwise, and be sure to write your name in your book in case it gets lost.

The Handbook is available in two versions shown below – the standard binding and the spiral binding which is slightly bulkier but has the advantage of lying flat for easier reference (as shown). The spiral bound version is the default provided by the Troop. If you would like to downgrade from the spiral binding, you can return the Handbook to the Scout Shop, but if you decide to exchange be sure not to mark in it or damage your Handbook in any way so that it is still returnable.

↑ Standard binding

Keep Your Handbook Safe

Your handbook was provided in a large Ziploc bag to keep it protected. You should strongly consider the purchase of a wrap-around or zipper cover at the Scout Shop as a better protection for your Handbook. For campouts, hikes, and other outings, keep your Handbook in the Ziploc bag to further protect it from the elements.

Handbook Cover (wrap or zipper style)
